November 27, 1996

Mr. Dan Wall
Project Manager
Superfund Division
U.S. EPA
Region VII
726 Minnesota Avenue
Kansas City, Kansas 66101

Dear Mr. Wall:

**FINAL DECISION DOCUMENT: ENGINEERING EVALUATION/COST ANALYSIS
(EE/CA) FOR THE PROPOSED REMOVAL ACTION AT THE SOUTHEAST
DRAINAGE NEAR THE WELDON SPRING SITE, MISSOURI (OCTOBER, 1996)**

Provided is the referenced final decision document for the Southeast Drainage removal action. Although no response action is strictly mandated by the implementing regulations of CERCLA on the basis of risk, discretionary actions will be taken consistent with the As Low As Reasonably Achievable (ALARA) approach and in the interest of minimizing total site risks. This decision provides a balance of maximum risk reduction and minimal ecological damage.

For further information, please contact Karen Reed (DOE) at (314)926-7008 or Yvonne Deyo (PAI) at (314)926-7034.

Sincerely,

A handwritten signature in cursive script, reading "Jerry S. Van Fossen", is positioned above the typed name.

Jerry S. Van Fossen
Deputy Project Manager
Weldon Spring Site
Remedial Action Project
